"All three of our kids have all had such fulfilling, wonderful, life-changing experiences at Camps Kenwood and Evergreen. They all grew up there- not just chronologically and physically, but also emotionally. We are very impressed with the philosophy you are instilling at camp, along with the focus on the 21st century life skills."

"There is no greater "deliverable/take away" than having children who are confident, happy, empathic, team members, bandmates and risk takers. The greatest "trophies" from our children's summers are the moments when they spontaneously break into a color war song while in the car, or tell us how much fun it was putting together a rock band with campers and counselors, or cry hysterically when they part company with their "other sisters" when the day comes for the camp summer to end and we hear about how they've been up all night laughing and sobbing."

"As a musician and performer, to watch my daughter sing a duet, and play the drums in front of 600 people... it makes me speechless.

The confidence she has gained this summer is immeasurable...you are sending her back to us with so much growth. Truly A transformation acceleration."

"I also was a camper, counselor and division leader at another camp. I did not choose my camp alma mater for my kids (this was like turning my back on family) because I felt they were stuck in a time warp. You guys do not miss a beat. Talking to the counselors was like talking to colleagues about group dynamics. Our visiting day discussion showed that they understood Oliver and his friends on a very deep level.

Seeing my son, normally a shy, reserved boy, help out his bunk mates and include his 6 year old sister in activities was truly heartwarming. He told me he will sing a solo in front of 600 people. He told me he is on the tennis, baseball, and basketball teams. I was surprised about baseball and tennis because he doesn't play that at home, ever. He is challenging himself. His growth in these past two summers moves me."

"I wanted to thank you for again helping Jared through a rocky beginning to the summer. I appreciate that you did not just "fix" the situation, but provided him with the skills to help himself and reminded him how to ask for help.

I see him using those skills at home and am constantly reminded why Kenwood and Evergreen is such a special place for him."

"Giuliana had the most wonderful time at Camp Evergreen. She has talked non-stop about all her adventures, new friends, and all the fun little moments that happen with kids at camp. She truly adored everyone. When I asked her what her favorite thing about camp was (chocolate pancakes, Jell-O wrestling...), she told me it was "the people. Everyone was so nice." Can you imagine? It was the last thing I expected to hear from a 9-year old. Giuliana loved everyone there and they loved her back.

Paul and I hoped that Giuliana could gain some independence, as she leads a sheltered life. She had only one sleep-over in her life before she went to camp (and that was because we made her do it to prove she could sleep away from home before we paid for camp!). Well, as you know, she never looked back and had the best time. Thanks again for taking such good care of her!"

"A week ago I visited with my extremely happy and relaxed daughter who sounds like she is having the time of her life at Camp. I am so pleased to witness the growth that has taken place with Abigail during her days at Evergreen. She is more willing to take risks and try new things. I especially enjoyed witnessing her effortless laughter, and her easy hello and chatter with her fellow campers and counselors. She feels so at home at Evergreen.

Thank you for all that you do to bring joy, laughter, security, adventure, friendship and a love of camp to my family."

"We spoke with the boys last night and the calls went from happy to happier. It was so incredible to listen to Henry speak with such love for his time at Camp this summer. A huge thanks for helping him bring his best self to Camp. He is in love with absolutely everything he has described, from all of the leadership opportunities, to the ample hang out time, to the role he was awarded as Tri-state Team Manager.

The sweetest anecdote was when he described his role as song leader; he said it was one of his happiest camp memories, and how thrilling it was to help lead his team to victory in that particular competition. There aren't enough words, and I sadly lack the eloquence to adequately thank you. Luckily a big hug is just around the corner. THANK YOU XOXOXO"

"I'm sure you get hundreds of follow up emails from parents after visiting day, but I couldn't help but to send you a quick note. Scott and I could not be happier with Camps Kenwood and Evergreen. So many (if not all) lessons and values that are taught at Camp make their way into our home. We are thrilled to have your camp as partners in raising our children. They have learned so many life skills at camp which they will carry with them for the rest of their lives."

"We had such an amazing Visiting day yesterday. The Camp is unbelievable and in 4 short weeks we can see so many changes in Ryder. He's so confident and independent - yet still his hilarious self. We know all parents are biased - but we really felt like he was the mayor of the camp... it felt like he was a local celebrity in Wilmot, NH.

The boys in his bunk were great - what a nice group of kids!! And the counselors were awesome...as was the food!"

"I just wanted to take a second to tell you both that once again I am overwhelmed with joy and gratitude for Camps Kenwood and Evergreen and everything it has done for my kids. I cannot even imagine who they would be without the K&E experience.

Thank you for providing such an amazing, formative, educational, valuable, loving, caring 9 years of camp for my kids."
